SUMMARY

Frontend Developer with 4 years of experience specializing in building high-performance, scalable web applications using React, TypeScript, Redux, and modern UI frameworks. Skilled in translating complex requirements into intuitive interfaces, optimizing performance, and delivering clean, maintainable code. Proven ability to collaborate across teams and drive end-to-end feature development in Agile environments.

EDUCATION

Dr. D Y Patil College of Engineering, Akurdi

Bachelor of Engineering in Information Technology (B.E in IT)

CGPA: 7.85

Pune, Maharashtra, India

August 2017 - June 2021

SKILLS

- **Languages:** JavaScript, Typescript, Nodejs, HTML, CSS
- **Libraries:** ReactJs, Redux, Jest, Tailwind CSS, React Router
- **Tools:** MongoDB, Webpack, Git
- **Soft Skills:** Excellent communication, Troubleshooting, Problem Solving, Team Management, Decision Making
- **AI Tools:** ChatGPT, Claude, Gemini, GitHub Copilot

WORK HISTORY

Senior Systems Engineer | Infosys

September 2021 - June 2024

- Developed responsive UI screens using **React, JavaScript, HTML, and CSS**, following design handoffs and coding standards.
- Integrated REST APIs and implemented state updates, form handling, and basic validation.
- Resolved UI bugs, layout issues, and API integration problems across multiple modules.
- Created reusable components (buttons, cards, input fields) to maintain design consistency.
- Improved UI reliability by optimizing API calls and reducing unnecessary re-renders.
- Added basic unit tests using Jest and React Testing Library for critical components.
- Supported deployments, production debugging, and documentation for team onboarding.

Packaged App Development Analyst | Accenture

July 2024 – Present

- Built scalable and modular frontend features using **React, TypeScript, Redux Toolkit**, and clean architectural patterns.
- Integrated complex REST APIs with caching, error boundaries, retry logic, and optimized network usage.
- Implemented **web analytics** (Adobe Analytics) to track user behavior, conversion events, and product KPIs.
- Ensured advanced **WCAG compliant accessibility**, including ARIA roles, keyboard navigation, screen-reader support, and color contrast fixes.
- Led performance optimization efforts such as **code-splitting, lazy loading**, and bundle size reduction to improve load times.
- Migrated legacy UI modules to **React + TypeScript**, improving maintainability and reducing technical debt.
- Collaborated with product, design, QA, and backend teams to deliver complex features end-to-end in Agile cycles.

PROJECTS

Stylz Clothing

- Technology used: HTML | CSS | JavaScript | React JS | Redux | Tailwind CSS
- Built a responsive e-commerce frontend with modular React components and global state management using Redux.
- Implemented product listing, category filters, search functionality, and a complete cart workflow with persistent state.
- Added secure user authentication, protected routes, and optimized routing using React Router.
- Improved performance with lazy loading, memoization, and reusable UI components.

Weather App

- Technology used: React.JS, REST API
- Developed a real-time weather dashboard integrating external REST APIs for accurate location-based weather data.
- Implemented dynamic UI updates, error handling, and loading states for seamless user experience.
- Designed a clean and responsive interface with reusable components, ensuring fast rendering and optimized API usage.

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate
- Infosys Certified React Associate
- Infosys Certified Frontend Web Developer
- Accenture Nordics Developer Program
